Copy 5 of 5

Chief, Military-Scientific Division

REFERENCE: Requirement NSA/Gens-03A/R4/58

P 4 3, 1, 1

25X1A

1. With reference to your meeting with [ ] on 12 November 1958 it was decided that your requirement would be answered in two parts. This memo is in answer to paragraphs 1, 2 and 4 of your requirement. Paragraph 3 of your requirement will be at a later date.

25X1A

2. Photography of [ ] was studied in answering this requirement.

3. Runway azimuth accuracy is limited by the scale and quality of available maps. Azimuths should be considered accurate to within [ ] degrees.

25X1

4. A list of airfields with their plane count, runway surface, orientation and markings follows:

LIEN CHENG 25°41'N/116°45'E

Runway:

Surface - Concrete  
Orientation - 180°/198°  
Markings - none

Aircraft:

[ ] - 51 Fresco, 1 Crate

Sixteen Fresco in two groups of eight are on two alert aprons on the southwest end of the runway. Seventeen in groups of eight and nine are on two alert aprons on the northeast end of the runway. One of the aircraft has its engine running and another is possibly taxying.

[ ] - 41 Fagot/Fresco

Sixteen of these aircraft are on alert aprons on the Southwest end of the runway and 19 of the aircraft are on alert aprons on the northeast end of the runway. Information for 30 September is incomplete due to scale of photography and cloud cover.

25X1A

LING CHI  $24^{\circ}34'N/117^{\circ}40'E$

Runway:

Surface - Concrete

Orientation -  $97^{\circ}/277^{\circ}$

Markings - none

Aircraft:

25X1A

[redacted] - 10 Fagot, 27 Fresco

Nine Fagot are on an alert apron on the west end of the runway. Seventeen Fresco in groups of eight and nine are on two alert aprons on the east end of the runway.

25X1A
